DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Milestone No. 5(6) marks Mason and Dixon's fifth mile west of the initial stone at the northeast corner of Maryland on their West Line. Originally, 24 monuments were set along the present Cecil/Chester and Lancaster county boundary (1 double crownstone at the corner, set in 1768; 4 crownstones and 19 milestones in 1766). Of these, 3 crownstones and 17 milestones remain on this part of the Line, No. 5(6) amongst them, at a site preliminarily surveyed in 1765.

The area here is still predominantly rural, rolling farmland, with Lewisville being one of the few small settlements. The site is located at the eastern edge of the settlement; about 1½ miles northwest of Fair Hill, Maryland; about 1000' south of the Lewisville Road (PA 472) in one of the fields in back of the Durborow farmhouse; at a point about 20' east of a hedgerow at the east edge of a farm service lane. Unmarked and unexposed, it cannot be seen from a distance or detected closeup. And because it is covered by so little soil (a few inches), it could be easily damaged by farm machinery, and must be considered endangered.

The monument, reset more securely in 1902 during the course of the 1900-03 Resurvey of the Maryland-Pennsylvania boundary, was standing about 1' above ground in 1948 (c. 9/19/48) when photos on file at the Maryland Historical Society were taken by Dr. A. L. Trussell. By the time of the 1950 field inspection it was described as "almost covered with earth." And though there are rumors that it has been moved "about 200' from the original site" it would seem to be where it was in 1948. At the time of the 1979-82 field inspection, we were able to expose the monument to a depth of about 18" and found it in fair condition, with the shields of the Penn and Calvert arms intact, with most fluting and some margins remaining; but with large chips on the top corners, chips along all edges; a deteriorating top with no planes or embellishments remaining and a large pit in the apex. It measured about 11" square; but we were unable to determine if it was ^{firmly in place} still/surrounded by the concrete collar of 1902 or had been moved.

(see Thematic Group NR nomination form for description of original crownstone and the 1900-03 Resurvey method of resetting)

SPECIFIC DATES 1766 (reset 1902)

~~LANDSCAPE ARCHITECT~~ Charles Mason & Jeremiah Dixon
SURVEYORS

STATEMENT OF SIGNIFICANCE

Milestone No. 5(6) is significant primarily as one of only 24 original crownstones still standing along Mason and Dixon's West Line, the boundary commonly known as the Mason-Dixon Line since Civil War times and notable for its historical impact and innovative survey methods. The site (if found to be original) was preliminarily surveyed in 1765 and monumented the following year, reset more securely in 1902 during the course of the 1900-03 Resurvey of the Maryland-Pennsylvania boundary. Individually, and as one of only three original crownstones within the present Cecil/Chester and Lancaster county boundary, No. 5(6) is also significant locally as one of a diminishing number of objects and structures with an identifiable relationship to our colonial and Civil War heritage.
